DETAILED REPORT

On 20-09-2021, the Department of Functional English organized an insightful seminar on Digital Research tailored specifically for undergraduate students. Shri.Aravindan S.S. , Assistant Professor of the Department of Functional English was the Resource Person. He initiated the seminar aimed to acquaint students with the fundamentals of digital research methodologies, the significance of digital data in academic inquiry, and the potential career pathways in the field of digital research. 59 students participated in the seminar.

Seminar Content: Morning session

1. Overview of Digital Research:

- The seminar commenced with an overview of digital research, elucidating its evolution, significance, and transformative impact on academic scholarship.
- Emphasis was placed on the democratization of data access, the proliferation of digital technologies, and the role of digital research in addressing contemporary societal challenges.

2. Exploration of Digital Research Methodologies:

- Students were introduced to diverse methodologies employed in digital research, including data collection, analysis, visualization, and interpretation.
- Case studies and real-world examples were presented to illustrate the application of computational techniques such as data mining, machine learning, and social network analysis in research endeavours.

Afternoon sessions:

3. Hands-on Workshops and Demonstrations:

- Engaging hands-on workshops and interactive demonstrations were conducted to familiarise students with popular digital research tools and platforms.
- Participants had the opportunity to explore data visualisation software, conduct basic data analysis tasks, and gain practical insights into research workflows.

4. Career Perspectives and Opportunities:

- The seminar provided valuable insights into the diverse career pathways available in the field of digital research, spanning academia, industry, government, and nonprofit sectors.

Interactive Sessions and Q&A:

Throughout the seminar, interactive sessions and Q&A segments fostered active participation and dialogue among students and presenters. Participants enthusiastically engaged with speakers, raising insightful queries, sharing personal experiences, and expressing keen interest in further exploring digital research domains.

Conclusion:

The Digital Research seminar proved to be a resounding success, equipping undergraduate students with foundational knowledge, practical skills, and career insights pertinent to the burgeoning field of digital research. By empowering students to navigate the complexities of digital scholarship and fostering a culture of curiosity and innovation, the seminar reaffirmed the department's commitment to nurturing the next generation of digitally savvy researchers and thought leaders.

The positive feedback received from participants underscores the significance of fostering digital literacy and research acumen among undergraduate cohorts, positioning them for success in academia, industry, and beyond.
