E.K.N.M Government College, Elerihattu – 2024

SECTION 1: LIBRARY AT A GLANCE

Name of the ILMS Software	: Koha
Nature of automation (fully or partially)	: Partially
Version	: 21.05.08.
Year of automation	: March 2022

The E.K.N.M Government college consistently endeavours to enhance the academic atmosphere for the student community through a multifaceted approach. The construction of a dedicated academic space, including the college library, was a significant stride toward the aforementioned goal. Situated in a serene and picturesque area, just a short stroll from the academic buildings, the college library was relocated to a separate building in 2018. This move ensured that it is equipped with all the comforts students need for peaceful reading and study sessions. It's not merely a place for books; it's a sanctuary where students gather to learn, collaborate, and explore new ideas.

The library plays a pivotal role in supporting the academic and research activities of the institution. Recognizing the need for modernization and streamlining of library operations, the decision was made to implement an ILMS. KOHA software was chosen for its robust features, user-friendly interface, and scalability to meet the growing needs of the library. The college library is dedicated to meeting the information needs of students, teaching faculty, and non-teaching staff. It operates on an open access system and utilizes the Dewey Decimal Classification Scheme for organizing materials. Additionally, users have access to an Online Public Access Catalogue (OPAC) search facility, enabling convenient and efficient retrieval of resources.

The Books are classified according to Dewey decimal classification. OPAC (Online public access catalogue) service is also provided where the users can search the collection of books by title, author, publisher etc. The books are being bar coded and the users are given unique barcode ID. Apart from the printed books the library is having access to e resources of n list which is a part of e-shodhsindhu consortium of INFLIBNET, where the users are given awareness and made to access browse and download e books, e journals, databases etc. The new books are displayed for two weeks on the display stand. User orientation is provided at the beginning of the year regarding the various facilities services and resources available in the library.

Objectives:

1. **Enhanced Access:** Ensure equitable access to a comprehensive range of information resources, catering to the diverse needs of students, faculty, and staff.
2. **Innovation and Technology Integration:** Embrace emerging technologies and innovative approaches to enhance library services, promote digital literacy, and facilitate seamless access to digital resources.
3. **Collaborative Learning Environment:** Foster a collaborative and inclusive learning environment that encourages intellectual curiosity, critical thinking, and interdisciplinary collaboration.
4. **Information Literacy:** Promote information literacy skills among users through targeted programs, workshops, and resources, empowering them to locate, evaluate, and utilize information effectively.
5. **Community Engagement:** Engage with the broader community through outreach initiatives, partnerships, and collaborative projects that address societal needs and contribute to lifelong learning.
6. **Continuous Improvement:** Continuously assess and improve library services, collections, and infrastructure to meet evolving needs and align with best practices in library management.

Membership

1. Upon joining the college, students and faculty automatically become members of the library. To initiate membership, individuals are required to obtain a Membership form from the library, complete the necessary information, and submit the application. The college issues ID cards which are essential for borrowing books.
2. The validity of the ID card extends for three years. However, at the commencement of each academic year, individuals must present their current year fee receipts for membership renewal. ID cards remain in the possession of members until their departure from the college. Book issuance is contingent upon the presentation of valid ID cards.
3. Upon completion of final year exams, students must procure a "No Due certificate" from the library, indicating the absence of outstanding obligations.

SECTION 2: REPORT ON INTEGRATED LIBRARY MANAGEMENT SYSTEM (ILMS)

1. Introduction of ILMS:

The introduction of an Integrated Library Management System (ILMS) represents a pivotal step towards modernizing our library services and catering to the unique needs of our rural college community.

2. Implementation Process:

The ILMS implementation journey began with careful consideration of our college's specific requirements and challenges. We decided to use the KOHA software for library automation and conducted extensive staff training sessions. Additionally, user education initiatives were undertaken to familiarize our students with the new system.

3. Key Features and Functionality:

The ILMS is equipped with a suite of features designed to address the specific requirements of our academic community which includes both students and faculties:

4. Simplified Cataloguing:

Intuitive tools are available for cataloguing and organizing library resources, accommodating a wide array of academic subjects and interests.

5. Streamlined Circulation:

Partially-automated loan processes and user-friendly interfaces simplify the borrowing and return of materials, ensuring a seamless experience for users.

6. Budget-Friendly Acquisitions:

The ILMS provides tools for managing acquisitions and subscriptions efficiently, allowing us to make cost-effective decisions and optimize our limited financial resources.

7. Accessible OPAC:

The Online Public Access Catalogue offers a user-friendly interface that is accessible even in areas with limited internet connectivity, enabling users to easily discover and access library resources.

OPAC stands for "Online Public Access Catalogue." It's a digital library catalogue system that allows users to search for and access library resources, such as books, journals, multimedia materials, and other items, through an online interface. OPACs provide users with various search options, including keyword, title, author, subject, and more, making it easier to find the materials they need. Additionally, OPACs may offer features such as placing holds, renewing items, viewing account information, and accessing electronic resources, enhancing the user experience and improving access to library collections.

***Note:** The screenshots of college OPAC system is attached within section 6

About KOHA Software

Koha is a fully featured, scalable library management system. Koha is an open-source Integrated Library Management System (ILMS) renowned for its versatility and user-friendly interface. Developed initially for small to medium-sized libraries, Koha has evolved into a robust solution suitable for institutions of all sizes. With its modular architecture, libraries can customize Koha to fit their specific needs, whether managing collections, facilitating circulation, or providing online access to resources. Koha's features include cataloguing, circulation, patron management, acquisitions, and serials control, all accessible through a web-based interface. Its community-driven development model ensures regular updates and enhancements, while comprehensive documentation and support forums make it accessible to libraries worldwide. Koha empowers libraries to streamline operations, enhance user experience, and adapt to evolving technological landscapes, making it a preferred choice for modern library management.

The objectives of implementing KOHA software include:

- Streamlining library processes such as cataloguing, circulation, and acquisitions.
 - Enhancing user experience through improved access to library resources.
 - Facilitating better management of library collections and data.
 - Generating comprehensive reports for monitoring and evaluation.
-
- The library is partially automated with RFID System with KOHA ILMS.
 - It has a diverse collection of 27672 Books with RFID tags, several print journals.
 - The library subscribes to 3 newspapers and magazines and has a rich collection of various reference sources such as encyclopaedia, dictionaries, atlas, and yearbooks, etc.
 - The library also provides access to about 6000+ e-journals and 1,99,500+ e-books through N-List Programme and 6,00,000 through NDL of INFLIBNET and a host of high-quality electronic databases subscribed by Kannur University Library System to its users.
 - There is one well-arranged reading hall for students and teachers.

- OPAC (Online Public Access Catalogue) is provided through Wi-fi to ensure easy access of books. Libsoft solutions provides the technical support for the E.K.N.M College Library OPAC. It is accessible through <https://eknmgc.libsoft.org/>.

SECTION 5: INFLIBNET

INFLIBNET, short for Information and Library Network, is an autonomous Inter-University Centre (IUC) of the University Grants Commission (UGC) of India. Established in 1991, it serves as a vital link among Indian universities, colleges, and research institutions by facilitating access to scholarly resources and promoting collaboration in information sharing and library services. INFLIBNET operates several key initiatives, including developing and maintaining digital libraries, providing access to e-resources, offering training programs for librarians and researchers, and promoting the use of information and communication technology in higher education. Through its various endeavours, INFLIBNET plays a crucial role in advancing the academic and research landscape in India. Our institution utilises the INFLIBNET for advancing the academic prospects of our student community by providing them with world class research documents and greater exposure to avenues of knowledge.

SECTION: 6 LIBRARY USER REGISTER

In the Library User Register section, we meticulously maintain comprehensive records of users' interactions and engagements within the library. This section serves as a repository of user activity, including details such as registered users' names, their membership statuses, timestamps of library visits, materials borrowed, and any associated fines or penalties. Such meticulous documentation not only demonstrates our commitment to transparency and accountability but also provides valuable insights for assessing user engagement and satisfaction levels. We ensure the integrity and credibility of our library services, contributing significantly to improvements in our institution's overall academic atmosphere.
