The institutional governance and leadership are in accordance with the vision and mission of the Institution and it is visible in various institutional practices such as NEP implementation, sustained institutional growth, decentralization, participation in the institutional governance and in their short term and long-term Institutional Perspective Plan.

VISION AND MISSION STATEMENT

VISION OF THE COLLEGE

“Sa Vidhya Ya Vimukthaye”

(Learning Liberates)

The phrase "**Sa Vidhya Ya Vimukthaye**" which translates to "Learning Liberates" encapsulates a profound truth about the transformative power of education. This ancient wisdom emphasizes that true learning extends far beyond the accumulation of knowledge; it is a process that fundamentally transforms the individual, leading to a deeper sense of freedom and liberation.

Intellectual Freedom

At its core, learning fosters intellectual freedom. By engaging with diverse ideas, perspectives, and disciplines, individuals break free from the confines of ignorance and narrow-mindedness. This intellectual expansion allows people to think critically, make informed decisions, and approach problems with innovative solutions. In essence, education cultivates the mind, empowering individuals to navigate the complexities of life with confidence and clarity.

Emotional Liberation

Learning also plays a crucial role in emotional liberation. Education encourages self-reflection and self-awareness, enabling individuals to understand their emotions and behavior patterns. This understanding leads to emotional intelligence, which is vital for personal growth and healthy relationships. By learning to manage emotions effectively, individuals can overcome inner turmoil, reduce stress, and achieve a balanced, peaceful state of mind.

Social Empowerment

Education is a powerful tool for social liberation. It breaks down barriers of class, caste, gender, and race, fostering a more inclusive and equitable society. By providing individuals with the skills and knowledge needed to succeed, education enables them to uplift themselves and their communities. This empowerment is particularly significant for marginalized groups, as it offers a pathway to economic independence and social mobility.

Economic Freedom

On a practical level, learning equips individuals with the skills necessary for economic independence. In a rapidly changing world, continuous learning and adaptability are essential for securing employment and achieving financial stability. Education opens doors to a myriad of opportunities, allowing individuals to pursue their passions, enhance their livelihoods, and contribute meaningfully to the economy.

Spiritual Liberation

On a deeper level, true education transcends the material realm and touches upon spiritual liberation. It encourages individuals to seek knowledge that illuminates the nature of existence and their place within it. This quest for understanding often leads to a greater sense of purpose and inner peace. In many philosophical traditions, learning is seen as a path to enlightenment, a journey towards realizing one's fullest potential and achieving a state of inner freedom.

To conclude, "**Sa Vidhya Ya Vimukthaye**" reminds us that education is not merely a means to an end but a lifelong journey that enriches the mind, heart, and soul. It is through learning

MISSION OF THE COLLEGE

- **Quality education and instruction for successful life**
- **Qualitative improvement of community life and national reconstruction through meaningful and effective extension activities**
- **Construction and dissemination of new knowledge through committed research**
- **Enlightening society towards excellence**

Fostering Excellence and Transformation

Our college stands committed to a holistic and transformative educational mission, centered around four core pillars: quality education and instruction, community life improvement, research commitment, and societal enlightenment. Each of these elements contributes to our overarching goal of fostering individual excellence and collective progress.

Quality Education and Instruction for a Successful Life

We believe that quality education is the foundation of a successful life. Our approach to instruction goes beyond traditional teaching methods, incorporating innovative pedagogies and technology-enhanced learning to engage and inspire our students. We strive to provide an environment where critical thinking, creativity, and practical skills are nurtured. By doing so, we prepare our students to face the challenges of the modern world with confidence and competence, ensuring they are well-equipped to achieve their personal and professional aspirations.

Qualitative Improvement of Community Life and National Reconstruction Through Meaningful and Effective Extension Activities

Education's impact extends beyond the classroom, influencing the broader community and nation. Our college is dedicated to improving community life through meaningful and effective extension activities. These initiatives include community service projects, outreach programs, and partnerships with local organizations. By actively involving students and faculty in these efforts, we foster a sense of social responsibility and civic engagement. Our goal is to contribute to national reconstruction by addressing societal issues, promoting sustainable development, and enhancing the quality of life for all members of our community.

Construction and Dissemination of New Knowledge Through Committed Research

Research is a cornerstone of academic excellence and societal progress. Our college is deeply committed to the construction and dissemination of new knowledge. We encourage faculty and students to engage in rigorous, innovative research that pushes the boundaries of their respective fields. By fostering a vibrant research culture, we aim to generate insights that address contemporary challenges and contribute to the global body of knowledge. Our research endeavors are designed not only to advance academic understanding but also to have practical applications that benefit society.

Enlightening Society Towards Excellence

Our mission extends to enlightening society towards excellence. We believe in the transformative power of education to elevate societal standards and drive progress. Through public lectures, seminars, workshops, and other educational initiatives, we aim to disseminate knowledge and promote lifelong learning. Our efforts are directed towards inspiring individuals to strive for excellence in all aspects of life, thereby creating a more informed, conscientious, and dynamic society.

To conclude, the mission of our college is a testament to our commitment to excellence and transformation. By providing quality education, enhancing community life, fostering cutting-edge research, and enlightening society, we aim to create a positive and lasting impact. Our collective efforts are directed towards empowering individuals to reach their full potential and contributing to the betterment of our community and nation. Through these endeavors, we aspire to fulfill our vision of fostering a brighter, more prosperous future for all.
